WESTENEDGE DRIVE DESIGN WORKSHOP

PART 2

WEDNESDAY, JUNE 29, 2016

6:00 P.M. – 8:00 P.M.

PARKSIDE ELEMENTARY SCHOOL, HARRISON ROOM

1400 PARKSIDE DRIVE

Creating the future for Westenedge Drive!

The City of Columbus Engineering Department and Healthy Communities conducted the Westenedge Drive Design Workshop on April 12. At that workshop, participants discussed various improvement ideas and provided recommendations. Since that time, the design team has been reviewing and condensing your recommendations to determine which of your ideas are feasible for Westenedge. Please join us as we continue to work together on a plan to implement your ideas.

This second workshop will again be facilitated by Mark Fenton, a nationally recognized transportation and public health expert. Mark works with communities around the country to build environments and policies that create places where people walk, bicycle, and use public transit.

YES, you can still join the discussion, even if you missed the first workshop. We want to hear from you. Please join us as we continue to discuss your ideas for the future of Westenedge Drive.

Contact the City Engineer's Office at 812.376.2540 for more information.
