RE: McCullough's Run Block H
Sanitary Sewer Extension - Plan Approval

Plans have been submitted for the construction of a sanitary sewer extension to serve the above referenced properties. The project is located west of Talley Road and south of 25th Street.

Plans for this project were submitted by E.R. Gray & Associates for Kocolene Development Corporation of Seymour, and have been reviewed by the Engineering Department. They have been found to be in compliance with accepted standards. At this time, I would ask that the Board approve the design plans and specifications for the proposed extension subject to the standard conditions.
