**Fitness Center Hours:**  
 Monday – Thursday    6:30 am - 7:00 pm  
 Friday    6:30am - 5:00 pm  
 Saturday    8:00 am - 12:00 Noon

Increment Weather Information: Please call 812-376-2682 (press the Wellness option) to check class status during bad weather.  
 No fitness classes one week per quarter for scheduled equipment maintenance and staff training. Fitness Center will remain open for regular hours.

**Levels of Intensity: (1) Beginner with a chair (2) Beginner (3) Intermediate (4) Advanced**

### Beginner

**Balance in Motion (1,2)** - Class is designed to improve your balance by strengthening your feet, ankles and legs; improving coordination; and training core strength. It will help improve posture while enhancing reaction and focus.

**Silver Sneakers Classic (1,2)** - Have fun and move to the music through a variety of exercises designed to increase strength, range of motion and functional movements. Hand-held weights, elastic tubing, chair and a SilverSneakers ball are offered for resistance. Some exercises performed while sitting in a chair.

**Silver Sneakers Yoga (1,2)** - You will move your whole body through a series of seated and standing yoga poses. Chair support is offered to safely perform a variety of postures to increase range of motion. Restorative breathing exercises and final relaxation will promote stress reduction and mental clarity.

**Tai Chi (1,2)** - This evidenced based program has been designed specifically for people with arthritis. Benefits include increased strength and flexibility, decreased joint pain, improved balance and stress reduction. *(Call for class schedule)*

**Yoga Basic (1,2)** - This class is designed for beginners with a focus on basic postures. Adaptations can be given for those with medical issues.

**Yoga Chair (1,2,3)** - This class will improve strength and balance as Yoga postures are practiced with a chair as a prop. Class ends with ten minutes of relaxation and reflection.

**Restorative Yoga (1,2,3)** - Restorative Yoga is defined as Yoga Postures completely supported by props, thus releasing the body to rest in the pose for longer periods to receive deeper benefits and encouraging the body's innate healing.

---

### Beginner to Intermediate

**Basic Strength (2,3)** - Gain strength and range of motion through traditional strength training exercises.

**Cardio & Osteo (2,3)** - To improve your cardiovascular and bone health, this low impact aerobic and strength training class uses traditional floor aerobics, free weights, and resistance equipment to help strengthen your heart, muscle and bones. Great for people with osteoporosis, osteopenia and osteoarthritis.

**Pilates (2,3)** - This class is designed to increase strength of the core. This class may not be appropriate for those recovering or suffering from any type of back injury.

**Piloxing (2,3)** - Come try the latest Hollywood fitness craze! Piloxing uniquely blends the power, speed, and agility of boxing with the beautiful sculpting and flexibility of Pilates. It is a fat torching, muscle sculpting, core-centric interval workout. (Express class 30 minutes)

**Silver Sneakers Circuit (2,3)** - Fun class uses low impact, standing choreography alternated with standing upper body work with hand-held weights, elastic tubing and Silver Sneakers balls. A step-up from Silver Sneakers Classic.

**Step (2,3)** - Using 4", 6" or 8" platforms, participants perform full body movement patterns to condition the cardiovascular system. Choreography variations demonstrated.

**Step & Strength (2,3)** - Step class with additional set of exercises added to increase muscular strength and endurance.

**Gentle Yoga (2,3)** - Learn the basics of practicing yoga. A class designed to be kind to the body and work joints through a full range of motion.

**Beginner to Intermediate classes continue next page**

**Levels of Intensity: (1) Beginner with a chair (2) Beginner (3) Intermediate (4) Advanced**

## Beginner to Intermediate

**Tabata Yoga (2,3)** - Tabata utilizes alternation between work and rest in a sequence of eight repetitions. This practice lends itself to yoga: holding a pose for 20 seconds, then resting for 10 seconds and repeating brings one to nirvana. Experiencing the link between yoga poses and Tabata will add to your existing yoga practice.

**Yoga Flow (2,3)** - Moving through a series of Yoga postures to improve strength, flexibility and range of motion. Participants must be able to move from standing to floor exercises to find success in this class.

## Intermediate

**Body Sculpting (3)** - A class using low resistance to sculpt and tone the body. Throughout the class the participant will perform continuous movements to build muscle, increase body temperature and elevate heart rate. Light weights, low reps and intensity variations demonstrated for different fitness levels.

**Horizontal Conditioning (3)** - Your body weight will be all the resistance you need in this challenging class. If you seek defined muscles and an incredibly strong core don't waste another minute. High intensity class.

**Muscle (3)** - The participant will explore strength, toning and functional benefits of this exercise class using a variety of resistance and weight equipment to improve body movement and overall health.

---

## Intermediate to Advanced

**Boot Camp (3,4)** - Calisthenics and core conditioning for a high intensity workout.

**Glide Xpress (3,4)** - A full body workout with just one piece of equipment. Glide Xpress uses gliding discs that incorporate body sculpting, balance, flexibility, core and cardio all with minimal impact to your joints.

**Muscle Fusion (3,4)** - Muscle fusion "fuses" the best of both worlds. Double your calorie burn with cardio intervals and define your muscles with higher repetitions using mid-range weights. This class is specially formatted to work each muscle group to achieving failure, then allow proper rest and recovery.

**Pump (3,4)** - A combination of standing and floor exercise using SPRI Bands, hand weights and stability balls to increase muscle tone and strength.

**Tabata / CSCT (3,4)** - Harnessing short duration high intensity exercises in a series to create a class to increase the after burn effect. Major muscle groups targeted with high intensity work. A small group training class to help promote and sustain success in long term exercise behavior adherence. Modifications given for different levels of fitness.

Note: Please consult your medical provider before starting any exercise program. Warming up and cooling down are essential for a safe and effective exercise routine. Please arrive on time to participate in the warm-up for each class.
