

# WESTENEDGE D R I V E D E S I G N WORKSHOP

TUESDAY, APRIL 12, 2016

6:00P.M. – 8:00P.M.

PARKSIDE ELEMENTARY  
SCHOOL, HARRISON ROOM

1400 PARKSIDE DRIVE

*A Fresh Start to  
the Street Design  
Process!*

The City of Columbus Engineering Department and Healthy Communities invite you to the Westenedge Drive Design Workshop. In small working groups, workshop participants will examine the current condition of Westenedge Drive and explore improvement options.

The workshop will be facilitated by Mark Fenton, a nationally recognized transportation and public health expert. Mark works with communities around the country to build environments and policies that create places where more people walk, bicycle, and use public transit.

Please join us for this evening of discussion as we look at Westenedge Drive as a blank slate and explore improvement possibilities!

Contact the City Engineering Department at 812.376.2540 for more information.

With advance notice, the City can provide special accommodation for persons with disabilities and/or limited English speaking ability and persons needing auxiliary aids or services such as interpreters, signers, readers, or large print. Should special accommodation be needed in regard to the attendance and participation during the workshop, please notify the City by Friday, April 8, 2016.
